

RhinoClean™ Green²™

PRODUCT DATA SHEET

PWG²122™ Press Side Wash

Description

- A biodegradable, press side-wash designed to open dried or clogged screen images during production runs. The product works quickly and efficiently on Plastisol, U.V. and many Solvent inks.
- Ideal for efficient and expedient screen washing during and after the press run.
- This Press Wash flashes off the screen very fast.
- Non-Flammable.

Directions

1. To remove ink from the open areas and bottom of screens, apply PWG²122™ to cloth and wipe the screen, beginning at the bottom.
2. To remove dried ink in screen images, brush, wipe or spray PWG²122™ onto squeegee-side of screen and wipe clean.
3. To clean screen following production run; remove remaining ink, then spray screen or apply PWG²122™ to cloth and wipe thoroughly to remove excess ink.
4. Wipe screen again with a clean, dry cloth to remove any excess.

It is the responsibility of the screen printer to test the product; review the MSDS prior to use to evaluate whether or not the product is correct for the application intended.
